Privacy Announcement

We're making some changes to give you more control of your information and help you stay connected. We've simplified the Privacy page and added the ability to set privacy on everything you share, from status updates to photos.

At the same time, we're helping everyone find and connect with each other by keeping some information—like your name and profile picture—publicly available.

The next step will guide you through choosing your privacy settings. You can learn more about how privacy works
